Introduction

Because of the increasing focus on environmental concerns in Canada, publication of materials related to environmental issues has increased sharply since 1970. This is particularly true for environmental education materials. This 12-volume series is a list of environmental publications suitable for classroom use, grouped under such topics as conservation, energy, land, pollutants and wildlife. (See Contents.)

The project was endorsed by a committee of federal and provincial environment information officers whose work puts them in daily contact with students and teachers seeking information and assistance on environmental topics.

The titles appearing in the catalogue are published by provincial and federal government departments as well as citizens' groups and other organizations concerned with the environment. Included in the list are books, folders, multi-media kits, periodicals, annual reports, fact sheets, publication lists, games, maps and posters. There are plans for building bird houses, environmental campaigns, class projects and conservation projects for the home.

Each publication has been examined for its value to teacher and student. For purposes of this catalogue, environmental education is defined in the broadest sense: not only the study of the effect of pollution on nature, but study of the entire natural world and the impact of human activity on it.

For each publication in the catalogue, a detailed annotation is provided. Each annotation includes language availability, grade level, topics covered, length, illustration content, date of publication, price, quantities available, distribution centre and a brief description of the text. Key words accompany each annotation (except maps and directories) to give a further idea of the content and the level of difficulty.

This publication is one of twelve that comprise the complete *Catalogue of Environmental Education Materials*. There are ten volumes listing materials available from provincial departments responsible for the environment and renewable resources, one volume for materials available from the Yukon and Northwest Territories, and a national (Canada) volume that lists materials available from federal government departments, crown corporations and national associations.

Copies of this and other volumes in the set are available from the organizations listed below.

How to Use This Catalogue

Following is an example of an entry in this catalogue:

1. The Basics of Oil Spill Cleanup
2. Mervin F. Fingas, Wayne S. Duval, Gail B. Stevenson
3. Environmental Protection Service, Environment Canada

4. E/F (10-12) Pollutants
5. 156 pp. Color photographs, diagrams 1979
6. \$6.95 NA-22

7. This book explains what happens to oil when it is accidentally spilled on water or land and the specific cleanup strategies that are possible under varying environmental conditions. It is designed to provide basic information to the public at large and to persons who may actually have to deal with the cleanup of an oil spill. Catalogue Number En 40-311/1978.

8. containment, hydrocarbons, toxic, surface tension

1. Title.

2. Author.

3. Publisher. In no author is indicated on the publication, or if author and publisher are the same, lines 2 and 3 are combined.

4. Language, grade level, topics. E/F means the publication is available in both English and French; E, English only; F, French only; B, bilingual in one volume. (7-9) indicates the grade level or levels suggested for the publication by educational consultants. Up to three topics are given for each publication; the publication is listed in each of these sections of the catalogue. For example, *The Basics of Oil Spill Cleanup* will appear, alphabetically by title, under Pollutants.

5. Number of pages or format, kinds of illustration, year of publication if known.

6. Cost, quantity available, distribution code. Quantities for free publications are single copy, class set, bulk. In general, quantities are not limited on priced publications.* Distribution codes with addresses where publications may be obtained are listed in the following pages.

7. Brief description of the content of the publication.

8. Key words, to further indicate content and level of difficulty.

*Please note that bulk orders from out-of-province cannot be processed, due to supply limitations. Single copies may be available in some cases.

Introduction

Au cours des années 1970, le public canadien a manifesté un intérêt accru face à son environnement. Maints ouvrages, didactiques et autres, sont venus répondre à cet engouement. Cette série de 12 volumes constitue un répertoire des publications destinées au milieu scolaire et regroupées selon divers sujets (voir la table des matières).

Ce projet a été sanctionné par un comité fédéral-provincial d'agents d'information spécialisés qui ont à répondre quotidiennement aux besoins d'élèves et de professeurs avides d'en connaître davantage.

Les publications présentées dans ce répertoire émanent des ministères des gouvernements fédéral et provinciaux, ainsi que d'associations ou d'organismes communautaires. Elles comprennent des livres, brochures, dépliants, périodiques, fiches d'information, rapports annuels, catalogues de publications, jeux, cartes et affiches. On y donne de l'information concernant la fabrication de nichoirs d'oiseaux, les campagnes de sensibilisation à l'environnement et différents projets de conservation à réaliser chez soi. Aux fins de ce répertoire, la définition d'éducation environnementale ne se limite pas aux répercussions de la pollution sur la nature. Elle englobe aussi les activités humaines et leurs effets sur la vie qui nous entoure.

Le *Répertoire didactique sur l'environnement* compte 12 volumes : dix d'entre eux regroupent les ouvrages publiés par les ministères provinciaux en matière d'environnement et de ressources renouvelables; un volume rassemble la documentation produite par le gouvernement du Yukon et par les Territoires du Nord-Ouest; enfin, un catalogue pour l'ensemble du Canada fournit la liste des publications des ministères du gouvernement fédéral, des corporations de la couronne et d'organismes nationaux.

On peut obtenir des exemplaires de chacun de ces volumes ou du répertoire au complet aux adresses suivantes:

Comment utiliser ce répertoire

Voici, à titre d'exemple, une entrée du répertoire:

1. L'Homme, les lacs et la prolifération des algues
2. John R. Vallentyne
3. Service des pêches et des sciences de la mer
Pêches et Environnement Canada
4. F/A (12+) (V+) Eau, Écologie
5. 196 pp. Photographies en couleurs, tableaux 1978
6. \$3.75 NA-04
7. Ce résumé, préparé à l'intention des non-spécialistes, traite des lacs et de la façon dont ils sont affectés par les apports de matières nutritives provenant des activités humaines (eutrophisation due à l'homme). On y fournit une liste de termes scientifiques et de définitions, une chronologie des événements jusqu'en 1974, des références ainsi qu'une série de tableaux et de figures destinés au lecteur ayant des préoccupations scientifiques.
8. eutrophisation, lacs, biologie, algues, phosphore.
 1. Titre.
 2. Auteur.
 3. Éditeur. S'il n'y a pas de nom d'auteur ou si le nom de l'auteur et celui de l'éditeur sont les mêmes, les lignes 2 et 3 n'en forment qu'une.
 4. Langue, niveau scolaire, sujets. Signification des symboles: F/A, publication offerte dans les deux langues; F, en français seulement; A, en anglais seulement; B, publication bilingue. Les mentions (12+) (V+) indiquent le niveau scolaire proposé pour l'ouvrage et établi par des experts en éducation. Les titres peuvent figurer sous trois rubriques. Ainsi, *L'Homme, les lacs et la prolifération des algues* est classé dans les sections Eau et Écologie.
 5. Nombre de pages ou format, sortes d'illustrations, date de publication (si donnée).
 6. Coût, quantité, code de distribution. Les publications peuvent s'obtenir en exemplaires individuels, en exemplaires multiples (collection de classe) ou en gros*. La liste des codes de distribution et des adresses pour les commandes se trouve dans les pages qui suivent.
 7. Résumé du contenu de la publication.
 8. Mots-clés permettant de mieux juger du contenu et du niveau de difficulté de la publication.

*Les commandes en gros ne sont acceptées qu'à l'intérieur de la province responsable de la publication. Toutefois, dans certains cas, les personnes résidant dans les autres provinces peuvent obtenir des exemplaires individuels.

E/F (6-12) Ecology, Parks

Series of 6 pamphlets Color photographs, illustrations, maps

Free Single copy NA-30

Ecotours have been devised to help the traveller appreciate the human and natural history of Canada's landscape. The route covered by Ecotours is divided into major landscape types, or Ecozones, each with a map showing the location of interesting ecological features illustrated and described in the text. While most ecological features can be seen without stopping, stops are suggested for some points of interest. Titles available are:

Calgary-Regina NA-50

Calgary to Golden, B.C. NA-50
